Stinsky, Fritz.
TITRIMETRIC DETERMINATION OF DISSOLVED SULFUR IN MINERAL OILS AND FATS (Titrimetrische Bestimmung von Gelöstem Schwefel in Mineralölen und Fetten). [1960] 4p. 1 ref.
Order from SLA mi$1.80, ph$1.80 61-10495

Trans. of Erdöl und Kohle (West Germany) 1957, v. 10, no. 4, p. 231.

A titrimetric method of analysis, which is a suitable substitute for the method previously used for determination of the so-called "active" sulfur in mineral oil, fats and similar products, is described. While the methods hitherto used did not yield results until after 24 hours at the earliest, the titration method produces results within one hour, with at least as much accuracy, as indicated by the check analyses. (Author)
